

LE MUR COMPARTMENT

Le Mur works like a room within a room. The high padded backs provide natural screening and sound damping. With its different compartment wall finishes, it can be extended with more compartments in a line or the compartment wall can be used as a common divider between compartments that face away from each other. The buttons on the back of Le Mur are not just there for decoration. As they go all the way through, at the back they can be used as clothes hangers or for hanging newspaper racks.

VARIANTS

	B	D	H
	2620 mm	45 mm	1315 mm
	2440 mm	45 mm	1315 mm
	2260 mm	45 mm	1315 mm
	895-660 mm	1500 mm	720 mm
