

Kinnarps

pan

pan

Pan is a screen with a strong design profile, yet it is also flexible and functional. It fits perfectly in public environments such as school cafeterias, offices or libraries. The screen, which is easy to move around, is available in five different colours and can be connected using the connecting clamps supplied. Since the screen can be placed in both straight lines and in free, curved shapes, there is plenty of scope to create your perfect solution.

Levelling feet

Levelling feet in powder-coated black steel with glide with felt pad. Four levelling feet are supplied with each screen.

Upholstered in Delta fabric

Pan is upholstered in Delta fabric and is available in the colours red, light grey, blue, lime green or black.

pan – screening
