

MATSUMOTO

Designer: Claesson Koivisto Rune

"In Matsumoto (a medium-sized city a few hours northwest of Tokyo), we designed a flagship store with a café. A table for two was developed, which when lined up edge-to-edge forms a kind of long café table, with clearly defined seat positions. A simple but easily recognizable geometry. The store's interior won the German Design Award 2015."

HB-535

Table

Performance

Top in black or white stained ash veneer. Pillar chassis in black or white lacquered metal.

Surface treatment

Semi matt lacquer.
