

FOX

Fox is a chair/armchair where form and materials meet in an uncomplicated design. A detail that simplifies things for users and is available as standard, is the newly-developed linking device which is built into the chair's/armchair's stacking protection. The solid wooden top on the armrests has no visible fixings which gives the armchair an elegant look. Fox is available in white pigmented ash, white stained ash or black stained ash and can be non-upholstered, have an upholstered seat or be fully upholstered. The armrests' finish matches the seat shell. When fully upholstered the armrests' finish are optional. The 4-legged frame is available in chrome alt. white, black or silver grey powder coating.
